How to use the Uber app

Create an account

All you need is an email address and phone number. You can request a ride from your browser or from the Uber app. To download the app, go to the App Store or Google Play.

Enter your destination

Open the app and enter where you're going in the **Where to?** box. Tap to confirm your pickup location and tap **Confirm** again to be matched to a driver nearby.

Meet your driver

You can track their arrival on the map. When they're a few minutes away, wait for them at your pickup location.

Check your ride

Every time you take a trip with Uber, please make sure you're getting into the right car with the right driver by matching the license plate, car make and model, and driver photo with what's provided in your app.

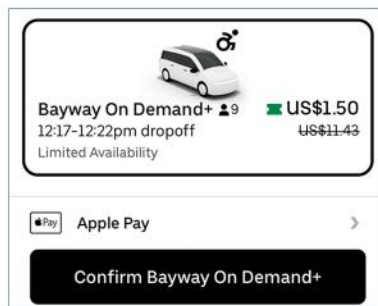

Sit back and relax

When you arrive, payment is easy. Depending on your region, you have options. Use cash or a payment method like a credit card or Uber Cash balance.

Rate your trip

Let us know how your trip went. You can also give your driver a compliment or add a tip in the app.
